

Overview

Microworks **Wine Direct 4.1** is a **completely integrated** industry-specific solution for managing your tasting room, direct sales, customers and inventory.

Cash Manager's all new touch screen user interface is intuitive and easy to use. Staff can be trained in less than 15 minutes and clerical errors are greatly reduced.

Ease of Use

Cash Manager's all new touch screen user interface is intuitive and easy to use. Staff can be trained in less than 15 minutes and clerical errors are greatly reduced.

Compliance Enforcement at Time of Sale

Cash Manager tightly integrates with ShipCompliant providing real-time compliance checks on shipping orders at time of entry! Collects and reports out of state sales tax, checks prohibited states and exceeded limits. Rest assured, you will always know that your shipments are compliant and most of all, that you are operating within state regulations.

Manage Wine Club Pickups at the Register

Simply look up the customer, select the orders ready to be picked up and have them sign a receipt. No more lists of customers going back and forth, no more wondering who has received their wine. The whole life cycle of the order is tracked and fulfilled through Wine Direct.
