Notes:

- Cables must route from above counter to lower counter through counter and shelf holes.
- Hole in counter for cables should be placed towards the rear of the cash drawer, and not under the cash drawer
- Cable routing holes must be AT LEAST 2 1/4" in diameter and not obstructed by pull out drawers in counter
- PC & Power cord area must remain free of clutter with adequate ventilation
- In order to swipe a credit card, there must be a minimum 6" clearance to the right of the touch screen at the card reader
- It is not recommended that the cash register be located above or next to dishwashers as the condensation is not good for the equipment.

Layout Options:

- Cash drawer can be mounted under counter.
- PC can be installed lying down rather than oriented as a tower.
