

## Overview

Microworks **Wine Direct 4.1** is a **completely integrated** industry-specific solution for managing your tasting room, direct sales, customers and inventory.

Use **Compliance Manager** to stay legal and compliant! Wine Direct Compliance Manager is fully integrated with ShipCompliant to enforce shipping rules and regulations during sales entry. Compliance Manager captures detailed direct shipping information for state reporting and audit.

## ShipCompliant Certified

Wine Direct integrates directly with ShipCompliant for real-time checking and reporting on each order to ensure you are compliant with your shipping states. Update products, download sales tax rates, check compliance and update orders on ShipCompliant's portal.

## Built-in State Level Controls

With our new compliance suite, you are now able to control your own basic state level compliance policies including onsite/offsite rules for prohibited shipments, state limits and sales tax at the time of sale!

## Out of State Sales Tax Collection

Wine Direct allows collection of sales tax at the city level for your customers who are shipping wine home. At the cash register or in the back office, have the confidence that you are collecting the correct sales tax. Download the tax rates from ShipCompliant for each state, county and city.

## Features

- Integrates with ShipCompliant
- Multiple Enforcement Levels
- Limit Sales by Address, Bottles & Gallons
- Track Out of State Sales Tax
- Order exceptions handling
- Delivery address verification
